

Eurofruti

**COMPANY FOR COLLECTION AND
PROCESSING OF FOREST FRUIT**

About Us

Eurofruti Company is a famous Company in Kosova and beyond. It has more than 30 years work experience in collection, processing and storing the mushrooms, frozen fruits and their export. The Eurofruti Company participates in the Kosova largest companies. We collect about 1500 Tons of different mountainous fruits: Blueberry, Blackberry, Raspberry, Strawberry, Cherry, Plums etc ; and about 100 Tons of Mushrooms.

What makes Eurofruti special is it's close relationship with it's farmers and the Ministry of Agriculture and the farmers associations. Eurofruti's agronomers are always near their farmers, helping them on every step, for a better and qualitative productivity. This year our company in cooperation with SWISS Caritas and USAID are doing a very good job with their farmers, by developing the integrated productivity also called AIP, and certification with GLOBAL GAAP.

Our Capacity

- It is worth mentioning that Eurofruti Company has the capacity of freezing at -35 °C at about 25 tons per day, and to preserve the frozen products up to 600 Tons. It has also a good trained personnel according to European practices that can be proved by the quality of our products. Eurofruti exports 97% of it's products which also collects and operates itself.

- Our Company keeps also good relationship with EU buyers and Balkan region. Eurofruti Company possesses a wide net of collections and producers throughout Kosovo as well as in a considerable part of Albanian Territory. Eurofruti Company has 30 collection points which are equipped with cooling and freezing rooms. Geographic position and numerous of other factors such as reliable configuration, geological composition, climatic conditions have enabled Kosovo having about 2'000 Ha of Raspberry, 500 Ha of Cherry, 100 Ha Blackberry, and hundreds of Ha with wild fruits, and we believe that in a near future Kosovo will have thousands of Ha with fruits.
